ECONOMY AND INDUSTRY

In this part of the test we will have a conversation about **ECONOMY AND INDUSTRY**. I am going to ask some questions that you are expected to answer. Try not to use monosyllabic answers, but to build up your responses; please show interest and take active part in the conversation.

1. Do you believe, as many do, that things were better in the past regarding the economy?
2. Can you explain why the rich are getting richer and the poor are getting poorer?
3. Describe how industries which have fallen into decline can be protected for heritage reasons?
4. Do you think that happiness is possible outside the work, earn, spend economic cycle?
5. How can your domestic economy have positive implications on your local economy?
6. How is your national economy influenced by what is happening on a global economic scale?
7. Is the revival of cottage industries just a fad, a passing fashion, or a realistic employment option?
8. What can be done to discourage the relocation of industries to Third World countries?
9. What is to become of industries based on fossil fuel consumption in the future?
10. What new types of industry have cropped up over the last few decades?
11. Why is it said that we are all at the mercy of multinational companies?
12. Will the Third World ever be able to survive without international aid?
13. How do you see the economic situation in Spain compared to other EU countries?
